15 & 16 JUNE 2023
Hotel Martinez, Cannes

32nd EUROPEAN CONGRESS

**BRIDGE TO
THE FUTURE PAINT SHOP**

SURCAR-EUROPE.COM

THE WORLD CLASS EVENT FOR THE WORLDWIDE CAR BODY FINISHING COMMUNITY

On behalf of Committee and team, I warmly welcome you to the 2023 SURCAR edition, in the amazing scenario of Cannes.

Despite last year's global challenges, such as disruptions to supply chains and energy crises due mainly to war rumblings throughout Europe, it is thanks to our networks that we were able to overcome these difficulties. This same power of networking will be a focal point during this edition too, and I am sure it will give participants ample opportunity to build relationships - many of which are sure to endure well beyond its conclusion.

This year's themes, trend to zero emission, how to use data and accelerating the Future of Paint Shop, are extremely actual and strategical for the next years not only in the automotive industry, but all industries around the world.

Our unique program will empower our collective knowledge, helping us keep up with progress in the world of painting.

I wish you to have a great time at Surcar!
